

Stack-n-Nest Bins

Features:

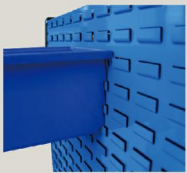

1. Made of high strength polypropylene with reinforced structure
2. Stackable on each other or hangable on the louvered panel
3. Nestable in each other to save space during transportation
4. Available in 6 sizes and customized color

Stack-n-nest bins are great for organizing and storing small to large parts, tools and hardware. They are also commonly used for garage storage, tools storage, craft storage, products and parts to display in a retail or repair shop, medication, pet supplies, office supplies and anything else that you can think of.

Stack and nest bins could also hang on a wall or panel in an office or even inside a plumber's or electrician's van.

Built-in lockers

multiple hangers

Reinforced ribs on bottom
